Victor-

I'm proposing to rename the site Darrow/Freezeout/Triangle Uranium Mine. Perhaps we could use these figures as briefing materials? Looks like Valois used for Dewey Burdock.

Figure 3 shows the abandoned mines on an aerial photo with the Dewey Burdock project boundary. Figure 2 shows the location of the abandoned mines relative to the UIC Class III injection well fields and the deep Class V waste disposal wells. They might be handy to have at some point.
